

PROJECT MANAGEMENT CHALLENGE 2006

Third Annual NASA Project Management Conference

BIOGRAPHY

Ms. Mina Samii, Ph.D.
Vice President
Computer Sciences Corporation

Biography:

Dr. Samii is CSC's vice president of Science and Information Services, responsible for all CSC work in support of NASA, NOAA, and USGS. Key support areas include science and engineering operations and analysis, end-to-end mission support, business process engineering, high-performance computing, information technology, and process improvement. From 1981 to 2003, Dr. Samii was project/program manager for several large programs in CSC's federal and commercial sectors. She holds a Ph.D. and Postdoctoral Research experience in Physics. She is a recipient of NASA's Space Flight Awareness Award and numerous individual and team awards for technical excellence. She has published 50 professional papers.
